7R55

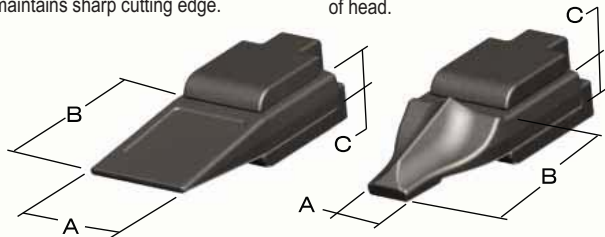

Holders for 16R55 Series Teeth

Part No.	Description	Approx. Wt.	
		lbs.	kg.
155000	B-256	2.5	1.1
155010	C-355	3.0	1.4
154990	E-555	2.5	1.1

Dirt: for use in the most common digging conditions. Thin cross section for best penetration; maintains sharp cutting edge.

Chisel point: easily penetrated compacted soil, sandstone, hardpan, caliche, etc. For use in inside pockets of head.

Forged from heat treated alloy steel.

Installs easily and quickly, yet holds securely.
