

LUG-ALL® HAS THE RIGHT HOOK FOR ANY APPLICATION

**CLEVIS HOOK - C**  
Removable clevis hook.

**GATE HOOK - U**  
Hook latch revolves on hook shank and locks under spring tension in open or closed position.

**CLEVIS JAWS - PS**  
Jaw fitting provides absolute attachment, high strength forged steel jaws and screw pins.

**MARINE GRADE WINCH-HOISTS**

Developed specifically for marine use or corrosive environments, our marine-grade winch-hoist has anodized casting, stainless steel cables, and cadmium plated steel shafts.

To order a Marine Grade winch-hoist, choose any small frame or medium frame model. Add "M" to the suffix of the model number.

*Marine grade not available in 6000 model.*

**LUG-ALL® = QUALITY • DURABILITY • RELIABILITY**

**LUG-ALL®**  
**CABLE RATCHET**  
**WINCH-HOISTS**

**WEB STRAP**

**WINCH-HOISTS from LUG-ALL®**

Specifically designed for overhead maintenance and construction of energized lines.

Small Frame - 1 and 1 1/2 ton capacity  
Medium Frame - 1 1/2 ton capacity  
Medium frame - 2 ton capacity

- Exclusive breakable stress link - signals the operator of an overload condition by breaking before any load-carrying part of the hoist is seriously overloaded. This cost-effective feature greatly reduces the need to replace fiberglass handles damaged through overloading.
- Double interlocking pawl mechanism - prevents load drop.
- Self-lubricating bearings - throughout housing assure smooth operation.
- Open frame construction - for cleaning and visual inspection.
- Double flanged drum - prevents web strap from coming in contact with ratchet teeth.
- Six hook styles - designed to meet application requirements and work practice standards.
- Drop Forged Hooks.

*Models equipped with hot stick levers, rings, and hot stick latches - for remote operation using approved hot line tools.*
