

# Pipe & Manhole Handling

## Model CPP - Pipe Pick™

The patented concrete Pipe Pick™ is a quicker, safer, and cleaner way of handling precast concrete pipe.

### PRODUCT FEATURES:

- Simple and fast.
- No need to reach inside the pipe.
- Worker remains above the pipe at all times.

IN-STOCK PROGRAM

The bigger the job, the more you'll like the **Pipe Pick™**.

Patent No. 5,820,186

**WARNING**  
Use only for vertical lifting.

# Pipe & Manhole Handling

## Model CPP - Pipe Pick™

Simply insert the **Pipe Pick™** into the lifting hole in the pipe — tilt — to engage the beveled edge — and lift up! You can now lift and set the pipe.

**Insert**

**Tilt**

**Lift**

To remove the **Pipe Pick™** once the pipe is set, lower the **Pipe Pick™**; the counter weighted lift arm automatically falls straight and the **Pipe Pick™** can be removed from the pipe.

**Lower**

**Tilt**

**Remove**
