

WEAR PARTS

Pilot Bits, Teeth, Holders and Installation/Removal Tools
for PENCO AUGERS, CORE BARRELS, and DRILL BUCKETS

PENGO AUGER SOIL CHART

Pengo has developed the chart below to help you decide which replacement part will be best suited for your project. The above triangles and color guide will be included with all products where applicable.

1	dirt; peat, organic silts, very loose sand, very soft, swamp, marsh	soil abrasion: low
2	sand; loose, fine sand; loess and medium clay, flood plain soils, lake clay	soil abrasion: medium
3	silt; coarse sand to stiff clay, dense hydraulic fill, compacted fill, residual soils	soil abrasion: high
4	clay; stiff to very stiff clay, glacial till, hard-pan, marls	soil abrasion: low to medium
5	gravel; basalt, very hard silts and clay, weathered laminated rock	soil abrasion: high
6	fracturable rock; caliche, coarse gravel and cobbles; frozen soil	soil abrasion: high
7	non-fracturable rock; granite, basalt, massive limestone	soil abrasion: high

Aggressor® Augers

AGGRESSOR® auger teeth are for use in dirt, abrasive soil or fracturable rock, depending on the type of tooth you are using. All types of the 40/50 tooth can be used at either a 40° or 50° angle providing different attack angles based on your drilling condition.

IMAGES NOT TO SCALE

THE NUTS & BOLTS

The 40/50 Teeth require a special carriage bolt and nut to secure the tooth to the AGGRESSOR® auger. These are not included with the teeth.

Released in 1984 the 16R51 Bident Tooth was developed with a thin profile for easy penetration and cross-ribbing of points for added strength to break out compacted soils. The "web" of metal between the ribs carries dirt out of the hole. The above teeth are forged of high alloy steel and heat treated for hardness.

The Pengo S21RR Tooth was designed exclusively for the Pengo BoRH® (Bolt-on Rock Head) which converts the Pengo Aggressor® auger into a rock auger in minutes. The stout S21-RR design works well in hard rock and concrete conditions and the enlarged tooth shoulder helps to protect the BoRH® from wear.
