

## 415 Series

Disk wheels for measuring? Just get brush caught in your spokes one time and you'll know one of the reasons the Rolatape 415 was developed. The 415 keeps you measuring accurately, down to the nearest inch, through the roughest conditions. Construction sites, geological field applications, engineering and trail-blazing all give the 415 a chance to shine.

### 415 Series APPLICATIONS

- Heavy Duty Construction
- Paved / Unpaved / Gravel Roads
- Main Extensions
- Utility Installations
- Trailblazing
- Engineering

## 415 SERIES

### FEATURES

All Steel Construction  
Solid steel disk wheel  
Measurement units on disk circumference  
5-digit steel counter  
Wheel Stand  
Wheel brake

### BENEFITS

Heavy duty strength and durability  
Measures through brush without catching in spokes  
Provides measurements in inches, tenths of feet or decimeters and centimeters  
Records up to 100,000 feet or meters with convenient reset knob (Dual counters available)  
Keeps wheel upright when not in use  
Transport to second site without losing existing measurement

## SPECIFICATIONS

Model	415	415E	415D	415M	415MD
<b>Measure Units</b>	Feet Inches Tenths	Feet Inches Tenths	Feet Inches Tenths	Meters Decimeters Centimeters	Meters Decimeters Centimeters
