

## MM-6.6 SERIES

Nothing measures the "back 40" better than the MM-6.6. Built of strong tubular steel to measure acreage, the MM-6.6 also handles row measurements and trenching applications. With a 6-foot, 6-tenths of a foot circumference, this wheel really eats up the distance. And its silver powder coat steel wheel makes it go the distance in style. Accuracy and reliability... the MM-6.6.

### MM-6.6 SERIES APPLICATIONS

- Acreage Measurements
- Row Measurements
- Trenching

## MM-6.6

### FEATURES

Large 6-foot, 6-tenths of a foot circumference wheel
